Dear Residents,

Welcome to the Graduate School of Arts and Sciences (GSAS) residence halls. This handbook is designed to familiarize you with the rules and regulations pertaining to life in the halls. These rules and regulations are meant to provide guidelines that promote an enjoyable living environment for all residents. Each year we edit the handbook carefully to make sure it is an updated and comprehensive reference guide. We hope you will use this as a first resource when Resident Advisors or others are not present to answer your questions.

Occasionally these policies are updated throughout the academic year based on changes in University policies or other circumstances. Residents will be notified of any policy changes in the weekly Friday email sent to all residents of the GSAS residence halls. In addition, the most up-to-date version of the GSAS Residence Hall Handbook can always be found online at: www.gsas.harvard.edu/current_students/residence_hall_handbook.php.

Questions and comments regarding the contents of the handbook should be addressed to GSAS Office of Residential Life, Dudley House, B2; 617-495-5060; gsasreslife@fas.harvard.edu or gsashouse@fas.harvard.edu.

For information about life at Harvard and the policies regarding graduate students, please refer to the GSAS Handbook: http://www.gsas.harvard.edu/handbook.

Best wishes for a productive and enjoyable year,

Garth McCavana, Dean for Student Affairs

Ashley Skipwith, Director of Residential Life

Jacqueline (Jackie) Yun, Director of Student Services

Safety Escorts and Transportation Services

CAMBRIDGE AND ALLSTON

Shuttle Bus 617-495-0400

The shuttle bus is designed to provide students and staff with safe and convenient transportation around the Cambridge and Allston campuses throughout the academic year, except during recesses and certain holidays. The service is free to members of the Harvard community. Service times vary during weekdays, weekend and holidays: check schedule for more details. Posters and pocket-sized schedules are available throughout the campuses, including the Information Center, house offices, libraries, dining halls, and transportation vehicles.

View the shuttle bus schedule at: www.transportation.harvard.edu/shuttle-van-services. Students can also track shuttles on this website, and download Shuttle Tracker phone applications as well.

Daytime Van Service 617-495-0400, TTY# 617-496-6642 (fully accessible)

The Van Service is intended for persons who, because of mobility impairment or medical condition, find it difficult or impossible to use the regular shuttle bus. Transportation is door to door within the Cambridge and Allston campuses. Rides in the van are by appointment only. All riders must be authorized in advance by either their local disability coordinator (students), or the Office of the Disability Coordinator (faculty/staff). Service times vary for academic, weekend, summer, and recess periods. For more information, please visit the Van Service website here: http://www.transportation.harvard.edu/shuttle-van-services/daytime-van-service.

Evening Van Service 617-495-0400

The Evening Van Service is designed to provide transportation throughout the Cambridge and Allston campuses as a supplement to the shuttle bus. Rides are free and available on request, 7:00 p.m. – 3:00 a.m. Last call received at 2:30 a.m. Please call ahead as you may have to wait as long as 30 minutes.

HARVARD UNIVERSITY CAMPUS

Escort Program (HUCEP) 617-384-8237

HUCEP teams, who are trained and supervised by the HUPD, provide walking escorts to students, faculty, and staff seven nights a week during the academic year and cover the Yard, North Yard, River, and Quad areas. Teams are identified by their brightly colored vests, labeled HUCEP. Escorts respond to calls for service through the HUCEP hotline (617-384-8237 or 617-38-HUCEP) or can be flagged down by students, faculty, and staff in need of an escort. Escort teams also are encouraged to ask solo walkers if they would like an escort to their destination. Hours: 10:30 p.m.-2:00 a.m., Sunday through Wednesday; 10:30 p.m.-3:00 a.m., Thursday through Saturday.

LONGWOOD

Walking Escort Service HMS/HSDM 617-432-1379, HSPH 617-432-1040

The walking escort service is available 24 hours a day. When you call, a security guard will escort you to your vehicle on campus, a campus building, or the nearest MBTA stop. Please call ahead as it may take as long as 15 minutes for your escort to arrive. Please wait for your escort once you have called.
Taxi Escort Service

The Taxi Escort Service is a complimentary service available to HMS Quad based students, faculty, staff, and students living off campus, as well as all HSPH students, faculty, and staff. The service is available from 9:00 p.m. to 3:00 a.m., seven days a week, from the NRB Security Desk. Students, faculty, and staff are required to show their HUID. Taxis will take you within one mile of the Longwood campus. The complimentary taxi service is not available for personal use by residents of Vanderbilt Hall. If a resident has a special academic need for taxi service, he or she must request approval in advance from the Office of Student Affairs and Financial Aid in order to use the service.

Longwood Medical Area Shuttle (LMA) 617-632-2800

The Longwood Medical Area Shuttle and the M2 Shuttle are managed by MASCO and operated by Paul Revere Transportation Company. The service runs between Vanderbilt Hall and the Johnston Gate in Cambridge, Monday through Saturday. Students at HMS, HSPH, HSDM, GSAS, DMS, HBS, and FAS, as well as Harvard University officers and staff, need only swipe their HUID to ride the bus for free. Other Harvard University graduate students, as well as faculty and employees of Harvard affiliated hospitals, must either purchase tickets at the M2 ticket offices or add value to their Crimson Cash account (which is accessed by their HUID) at the Crimson Cash Website (www.cash.harvard.edu). For schedule, information and ticket sale locations visit: www.masco.org/directions/m2-cambridge-harvard-shuttle.

For more information about playing it safe, visit www.hupd.harvard.edu or call 617-495-1215.

GSAS Residence Halls

THE BUILDINGS

Perkins Hall and Conant Hall were built in 1893 and 1894, respectively. Designed by Shepley, Rutin, and Coolidge, these buildings are representative of the Georgian architecture used in the freshman residences in Harvard Yard. The funds for Perkins Hall were donated by Catharine Page Perkins, the widow of an oil tycoon, in memory of three members of her husband’s family: Reverend Daniel Perkins (AB 1717), Richard Perkins (AB 1748), and William Foster Perkins (AB 1819). Perkins Hall was originally intended to house undergraduate students from modest circumstances and was converted into graduate housing in the early 1900s. Perkins Hall houses 154 single rooms.

Conant Hall, located on Oxford Street across from Perkins Hall, was funded by a gift from Edwin Conant (AB 1829). The first large dormitory and common area for graduate students of the arts and sciences, this 29-suite building was considered a great asset to graduate students who had previously lived in inconveniently located apartments. Conant Hall has undergone a number of renovations since its original construction and now houses 84 single rooms.

Construction began on Richards and Child Halls in 1949. The two buildings, along with several Law School dormitories and Harkness Commons, were designed by the German modernist architect Walter Gropius. Richards Hall is named for Nobel Prize-winning chemist Theodore Richards; Child Hall takes its name from former English professor Francis J. Child. (Child Hall was originally called William James Hall in honor of the early Harvard psychologist but was renamed when the new William James Hall, housing offices and classrooms for the social sciences, was erected on Kirkland Street.) The two residence halls are constructed around Jarvis Field, where the first American football game was played in 1874. The lawn space includes Richard Lippold’s “World Tree” sculpture, a playful 27-feet-tall assemblage of steel
pylons specifically designed to be climbed by students. Child Hall houses just over 100 students and Richards Hall just over 70.

**RESIDENCE HALL ADMINISTRATION**

Garth McCavana, Dean for Student Affairs, has general responsibility for the welfare of graduate students and monitors students’ academic status, progress, and discipline. He oversees the GSAS residence halls and the offices of GSAS Student Affairs, Student Services, and Residential Life.

Dean McCavana represents students in disciplinary cases before the Administrative Board and advises students on Title IX complaints. He coordinates orientation and registration activities. His main office is located in Smith Campus Center (617-495-1814), but he also has an office on the third floor of Dudley House (617-496-3362).

The Office of Residential Life is responsible for the Resident Advisor (RA) Training Program and oversees functions of the RA role. Ashley Skipwith, Director of Residential Life, supervises the Resident Advisors for the GSAS residence halls. She is also responsible for addressing any problems with facilities in the residence halls and the assignment of rooms for the academic year and summer. She acts as the advisor to the Graduate Dormitory Council, directs the GSAS Office of Residential Life, oversees summer conferences, and provides services related to housing issues off campus. (617-495-5060, gsasreslife@fas.harvard.edu or gsashouse@fas.harvard.edu)

The Director of Student Services, Jacqueline (Jackie) Yun, is a go-to person for students. Jackie assists students who are having academic or personal difficulty. She is available to help students navigate and connect with Harvard resources. Jackie works closely with student leaders and supports Graduate Student Groups (GSGs) and Departmental Graduate Student Organizations (DGSOs). Jackie also serves as a Title IX Coordinator for GSAS and is available to anyone who might have questions or concerns regarding sexual and gender-based harassment. She serves in an advisory role, provides ongoing support, and makes referrals to other resources, as necessary. Whatever the issue, the Office of Student Services is a great place to start. (617-495-5005, stuserv@fas.harvard.edu)

Bob Byrne, GSAS Facilities Manager, is responsible for the maintenance and operations of the residence halls. (617-495-0747, gsasfm@fas.harvard.edu)

Janet Daniels, Staff Assistant, provides administrative support to the Offices of Residential Life and Student Services, as well as the GSAS Facilities Manager. (617-495-5005, stuserv@fas.harvard.edu)

Patricia Collyer, Housing Assistant, assists in all matters involving the administration of the GSAS Office of Residential Life. (617-495-5060, gsashouse@fas.harvard.edu)

**FAS Green Program.** The FAS Green Program is an education program that promotes sustainable living in the Faculty of Arts and Sciences, including the GSAS residence halls. The FAS Green Program is supported by the Harvard Office for Sustainability.

Additionally, the program employs one GSAS Green Living Representative to run campaigns and study breaks centered around peer education on sustainability issues. The Green Living Rep will work with the Environmental RA to connect with residents on:
- Energy and water conservation
- Recycling and waste reduction
- Green events
- Environmentally friendly computing

RESIDENT ADVISORS

Resident Advisors (RAs) are graduate students employed by the GSAS Office of Residential Life to serve as a resource for students, help students adjust to residence hall living, aid in emergency situations (including illness and accidents), and serve as liaisons to the GSAS administration. RAs also put on various social events and gatherings throughout the year; residents are encouraged to suggest study breaks and events to RAs.

Perkins Hall – 35 Oxford Street
CUSTODIAL SERVICES

Custodial Services oversees the cleaning and maintenance of the GSAS residence halls. If there are any questions, concerns, or comments about the custodial services, please feel free to contact Sabrina Lesgourgues Barletta, Supervisor of Custodial Services, at sabrina_lesgourgues@harvard.edu.

GRADUATE DORMITORY COUNCIL

The Graduate Dormitory Council (GDC) is a voluntary graduate student organization with the primary goal of improving the quality of life in the GSAS residence halls. The GDC organizes and funds a variety of social events throughout the year, including an annual welcome BBQ, bagel brunches, movie nights, game nights and more. The GDC also provides a number of resources and services for residents, including:

- televisions in various lounges in the residence halls, many include a DVD player
- sports equipment, barbeque grills, and other items which may be borrowed by residents (make arrangements with the Equipment Officer)
- a DVD and board game library, which may be borrowed during designated library hours

GDC meetings are generally held on the third Sunday of each month. Meetings will be announced via email. Meetings are open to all residents, and all are invited to express concerns about residential life and vote on the issues raised at the meeting. In addition, approximately $400-$600 in GDC funding is available at each meeting for resident organized events. Such events are open to all residents and must be advertised throughout the GSAS residence halls. During the initial hall meetings, at least one volunteer from each floor is encouraged to act as the GDC representative for that floor and to attend GDC meetings every month.

GDC Officers are elected annually in the late spring. The GDC Officers for the 2015-2016 academic year are:

President: Carlo Alberto (carloalberto.amadei@gmail.com)
Vice President: Joel Wing-Lun (jwinglun@g.harvard.edu)
Treasurer: Xiabing Lou (xiabinglou@fas.harvard.edu)
Social Coordinators: VACANT
Movie Officer: Wenbo Fu (wenbofu@fas.harvard.edu)
Athletic Officer: Ioana Zelko (ioana.zelko@gmail.com)
Equipment Officer: Shiang Fang (shiangfang@fas.harvard.edu)
Web Officer: Vivian Rong (wei_rong@mail.harvard.edu)
Public Service Officer: Vivian Rong (wei_rong@mail.harvard.edu)

To learn more about the GDC and its services, please visit the GDC website at http://projects.iq.harvard.edu/gdc/home.
Dudley House

Dudley House, the graduate student center, is located in Lehman Hall in the southwest corner of Harvard Yard and across from Out of Town News on Massachusetts Avenue. The House provides an opportunity for GSAS students and all residents of the GSAS residence halls to interact with fellow graduate students and faculty from all departments in an informal atmosphere. Events include parties and special events, discussion groups, dinner speakers, dances, faculty/student dinners, movies, ski trips, pub nights, and outings. Students may participate in intramural athletics, a chamber orchestra and chorus, a jazz/swing band, a world music ensemble, and public service activities sponsored by the House. There is also a student literary magazine, The Dudley Review, which is open to contributions from students in all departments.

Dudley House includes a dining room that serves meals on a cash or contract basis, a student run café (the Gato Rojo), game room, library, computer and printing facilities, lockers, pianos, meeting space for GSAS student organizations, and the Graduate Student Council office. The GSAS Offices of Residential Life and Student Services are also located in the basement of Dudley House.

Members of Dudley House are entitled to use all of the House facilities, including the game room, library, and pianos, and to participate in special dinners, trips and House events. In addition, the Dudley House computer room and printing facilities in the basement are available only to Dudley House members.

Students from other Schools who live in the GSAS residence halls are also members of Dudley House and are entitled to use its facilities and participate in events. Non-GSAS resident students must have a “Dudley House Member” sticker on their ID cards (see the GSAS Office of Residential Life) to attend members-only events. Students who are neither GSAS students nor residents of the GSAS residence halls are not eligible to become members of Dudley House.

DUDLEY HOUSE STAFF

Master Jim Hogle, Co-Master Doreen Hogle, House Administrator Susan Zawalich, and Staff Assistant Jeff Chenette coordinate and facilitate the activities and services of the House. Dudley Fellows are GSAS students who run Dudley House programming. They are eager to meet you, help with your concerns, and encourage you to participate in the various Dudley activities.

The Dudley Fellows for the 2015-16 academic year are:

Arts:       Evgeni Frenkel (frenkel@fas.harvard.edu)
            Tal Grebel (tgrebel@g.harvard.edu)
            Oliver Marjot (olivermarjot@g.harvard.edu)

Athletics:  Eliza Gettel (egettel@fas.harvard.edu)
            Will Steinhardt (wsteinhardt@fas.harvard.edu)

Coordinating: Edlyn Levine (edlynlevine@fas.harvard.edu)

Food Literacy: Lei Lin (leilin@fas.harvard.edu)
Gato Rojo: Seung Lim Esther Hyun (shyun@g.harvard.edu)

Intellectual/Cultural: Jonas Ruegg (jonasruegg@g.harvard.edu)

Justin Stern (justindstern@fas.harvard.edu)

Shuyan Zhang (shuyanzhang@fas.harvard.edu)

Literary: Maria Devlin (mariadevlin@fas.harvard.edu)

Anne Roehrborn (roehrborn@fas.harvard.edu)

Music: Tom Lovering (Chorus) (lovering@fas.harvard.edu)

Tamar Sella (Jazz Band) (tamar.sella@gmail.com)

Kai Polzhofer (Orchestra) (polzhofer@fas.harvard.edu)

Leo Blondel (World Music Ensemble) (l blondel@fas.harvard.edu)

Aaron Benavidez (Music Program Assistant) (benavidez@fas.harvard.edu)

Outings: Marinna Madrid (marinnamadrid@gmail.com)

Alan She (she@fas.harvard.edu)

Public Service: Mariam Goshadze (mgoshadze@fas.harvard.edu)

Huan Jin (huanjin@fas.harvard.edu)

Social: Ben Green (bgreen@g.harvard.edu)

Nare Janvelyan (njanvelyan@fas.harvard.edu)

Melany Sun-Min Park (parkmelany@gmail.com)

Ben Wong (wong01@fas.harvard.edu)

DINING AT DUDLEY HOUSE / DUDLEY CAFE (DINING ROOM)

Dudley Café combines the convenience of a bakery café with the value of a Harvard-run dining hall.

Hours of Operation/Food Choices

Dudley Café is open Monday through Friday, except on holidays and University vacations. Lunch is served from 11:30 a.m. to 2:30 p.m., dinner from 5:00 to 8:00 p.m.

Meal Plan

Eligibility and Enrollment. All residents of the GSAS residence halls are required to enroll in the Dudley House Meal Plan, which provides an excellent opportunity for residents to meet and interact with fellow students who are in a variety of disciplines and schools. The meal plan offers 153 meals for the 2015-16 academic year, all to be eaten at Dudley Café.
The meal plan consists of three meals per week, to be used either for lunch or dinner. Each student is also given 16 floating meals per semester, which they can use at their discretion, only for him/herself, and 16 guest meals per semester, which they can use at their discretion, either for him/herself or for guests.

**Options:**

- Use three meals per week for yourself; these meals do not roll over to the next week.
- In addition to the three meals per week for yourself, use one or more of the 16 floating meals and/or 16 floating guest meals for yourself.
- For example, use a maximum of 1 floating meal at lunch and/or dinner to eat in the dining room. (Meals at lunch may also be taken “to go.”)
- Use one or more of the 16 guest meals for up to 4 guests. You cannot use more than 4 guest meals at one time. Please note: Guest(s) must be present in the dining room when you request a guest meal.

To obtain a meal at Dudley Café, residents must present their Harvard ID at the checkout counter. Lunch is a points equivalence system, up to a total value of ten points. Dinner is an “all you care to eat” buffet. Dudley Café accepts the following alternative methods of payment for lunch or dinner: Crimson Cash, cash, MasterCard, or Visa.

The Dudley House Meal Plan will automatically be cancelled if a student cancels his or her room contract. The Dudley House Meal Plan is available to students who do not live in the GSAS residence halls. Interested students should contact Harvard University Dining Services, 65-67 Winthrop Street, at 617-495-2710.

**Contract Length.** The first meal of the fall term will be served Tuesday, September 1, 2015. The last meal of the fall term will be served on Friday, December 11, 2015. The first meal of the spring term will be served on Monday, January 11, 2016. The last meal of the spring term will be served Friday, May 13, 2016.

**Fees.** The fee for the meal plan is $2,232.00 for the academic year.

**Missed Meals.** Unfortunately, residents cannot be reimbursed for any missed meals; the meal plan cannot be cancelled due to academic/class conflicts. If you know in advance that you cannot make a meal, you can make arrangements for a boxed meal. Please contact a member of the Dudley Café staff for a boxed meal request form or visit [http://www.dining.harvard.edu/retail_dining/restaurants_dudley.html](http://www.dining.harvard.edu/retail_dining/restaurants_dudley.html). Please note that boxed meal requests must be made at least 24 hours in advance. Lunches at Dudley can also be taken “to go” to accommodate busy schedules.

**Dietary Needs.** Recognizing that dietary preferences vary, the Dudley Café offers a range of menu items to satisfy many individual needs. If you require a special diet or have other dietary needs, contact General Manager Susan Courtney at 617-495-3381 or susan_courtney@harvard.edu.

**Kosher Options.** Residents should keep in mind the Dudley Café is a non-kosher kitchen. With 48-hour advance notice, kosher students may order a dinner meal, prepared by our Hillel kitchen and delivered to you at Dudley Cafe. See one of the managers or supervisors to place your order. Kosher students may also choose to have a dinner at our Hillel dining room, Monday through Friday, using their Dudley meal
plan. Students should go directly to the Hillel dining room and let the staff there know they are on the Dudley meal plan.

If a resident keeps strict kosher, s/he can transfer his/her Dudley Café meal plan to Hillel; all meals will then be taken at Hillel, and the meal plan is no longer associated with Dudley Café. During the Jewish holidays, residents can make a reservation at Hillel and use their Dudley meals there. Since holiday meals are popular, it is necessary to make reservations. Reservations can be made by calling (617) 495-4695 ext. 221.

Closings. On several occasions during the year, events that are held in the Dudley House Dining Room necessitate closing the dining room prior to 8:00 p.m. Residents will be notified in advance if Dining Room hours must be shortened.

Dudley Café is closed during the following University holidays or recesses:

**Columbus Day: October 12**

**Veteran’s Day: November 11**

**Thanksgiving Break: November 25* – 27**

**Winter Break: December 14 – January 8 (reopens on Monday, January 11)**

**Martin Luther King Jr. Day: January 18**

**President’s Day: February 15**

**Spring Break: March 14 – 18 (reopens on Monday, March 21)**

*Please note that on November 25, Dudley Café will only be closed for dinner. The Café will remain open for Lunch.*

Feedback Cards. Students are encouraged to provide feedback to the Dining Services staff. Information provided by students will help the staff make the dining experience more enjoyable. Feedback is welcome both verbally and/or by using the cards available at the checker’s desk and online at [http://www.dining.harvard.edu/retail_dining/retail_feedback.php](http://www.dining.harvard.edu/retail_dining/retail_feedback.php).

Staff. The Dining Room staff takes great pride in creating a friendly environment in which to dine. This environment can only be maintained with the help of students. Please remember to be courteous and respectful when approached by the staff.

**Café Gato Rojo**

The Café Gato Rojo will re-open on Tuesday, September 1. Come discover the best kept secret in the Yard! The Café is open 8 a.m. to 10 p.m., Monday-Thursday, 8 a.m. – 8 p.m., Friday and closed on Saturday and Sunday. Excellent coffee, tea and pastries, service with a smile, and a price tag fit for a grad student's budget.
GSAS Residence Hall Facilities

BICYCLES/BIKE ROOMS

Residents who bring bicycles with them should register the bicycles with the Harvard University Police. Bicycle theft is very common in Cambridge. Residents should plan to store their bicycles in their rooms or in the bike rooms provided.

Bike rooms are located in the basements of Perkins and Conant Halls. They were established to provide a more secure storage area for residents; however, the University claims no responsibility for bikes stored there.

Bike rooms are for residents of the GSAS residence halls only. Residents who use the bike rooms must provide locks for securing bicycles to racks. It is recommended to use a “U” lock, rather than a cable or chain lock, as “U” locks are more difficult to cut. Bikes must also have a GSAS resident sticker that identifies the bike as belonging to a current resident. GSAS resident bike stickers may be obtained from the Facilities Manager’s Office, Perkins Hall Room 110. Bikes that do not have a resident sticker will be donated to charity.

Bike racks are located on the Oxford Street side of Richards Hall, on the Massachusetts Avenue side of Child Hall, south of Perkins Hall near Maxwell Dworkin, and in front of Conant Hall.

Bicycles must not be left in corridors or chained to pipes, radiators, stairways, stairwells, gutters, drainpipes, handrails, outside entrances, etc. Any bicycles stored in prohibited locations will be removed and donated to charity.

COMPUTERS/COMPUTER ROOM

Computers. GSAS residence halls have wireless Internet access and each individual room is equipped with a data jack. Residents must provide their own Ethernet cord in order to use the data jack. Information about connecting to the FAS network can be found at http://huit.harvard.edu/. This information was also included in each move-in packet upon check-in. Residents experiencing computer problems can contact the Harvard University Information Technology (HUIT) Help Desk at 617-495-7777. The Help Desk can provide support over the telephone or students can schedule an appointment with a user assistant who provides in room technical and software support.

Computer Room. The computer room, located in the basement of Child Hall, is administered by Harvard University Information Technology. It is for use by all current residents of the GSAS residence halls. The room provides access to both PC and Macintosh computers, as well as access to all of the programs and services provided by Harvard University Computer Services. A printer and a scanner are also provided. To use the Child Basement Computer Lab, students enrolled in other graduate schools outside of GSAS who reside in the GSAS residence halls must request an FAS computer account. Students should request this account through the GSAS Office of Residential Life. After the request has been made, it may take several weeks for the account to be activated.

All students who use a residence hall computer room must abide by the rules and regulations set forth in the GSAS Handbook and the HUIT Computer Services User Guides. It is the individual student’s responsibility to have read and understood these rules and regulations.
CRIMSON CASH

Crimson Cash is a convenient payment method applied to your Harvard ID or to a Crimson Cash card that can be used at many campus locations. Instead of carrying cash, you can use Crimson Cash to purchase a meal at a campus restaurant, take a guest to a residential dining hall, buy a soft drink or snack at more than 100 vending machines, use the residence halls’ washers and dryers, make copies or use the computers and microfiche in many libraries, and even buy computer products and services at the Technology Products Center.

Residents may purchase Crimson Cash in a variety of ways:

- Call 617-496-6600 and use a MasterCard or Visa to purchase Crimson Cash over the phone.
- Go to one of the Value Transfer Stations (VTS) on campus and apply value to your Harvard ID.
- Visit the website: www.cash.harvard.edu.

FACILITIES PROBLEMS

Routine Maintenance. All routine maintenance and nonemergency facilities problems (in both individual rooms and in common areas) should be reported in writing by emailing the GSAS Facilities Manager (gsasfm@fas.harvard.edu). Once the request is submitted, the appropriate trades people are contacted to make the necessary repairs.

If you have ordered a repair and nothing has been done after one week, check with the GSAS Facilities Manager, located at Perkins Hall, Room 110.

Operations Center. The Operations Center is the central operations office for facilities at the University. The Operations Center staff is available on a 24-hour-a-day basis to respond to emergency situations at the University and in the GSAS residence halls. Individual residents may call the Operations Center when there is an emergency in the GSAS residence halls or their room and the Facilities Manager or an RA is not immediately available.

Emergency Repairs. All emergency repairs (e.g., electrical, plumbing problems, etc.) should be reported to the appropriate parties during the following times:

- GSAS Facilities Manager, 617-495-0747: Monday–Friday, 9:00 a.m. – 5:00 p.m.
- Operations Center, 617-495-5560: All other times (evenings and weekends)

Nonemergency repairs should be reported to the GSAS Facilities Manager during normal business hours.

Biohazardous Spills/Clean Up. In the event of a biohazardous spill, including bodily fluids (e.g., blood, urine, vomit), residents should not make any attempts to clean the area. Residents should immediately contact a Resident Advisor, the GSAS Facilities Manager (617-495-0747), the Operations Center (617-495-5560) or the GSAS Office of Residential Life (617-495-5060) to notify them of the spill. Arrangements will be made for appropriate personnel to clean the spill. Residents who themselves spill bodily fluids are urged, if possible, to clean up after themselves.

When a resident is able to clean up after him/herself, it is still essential for the resident to contact the personnel above in order for the area to be properly sanitized. In the event, however, that a resident is severely injured or ill and cannot clean up after him/herself, the appropriate personnel will handle the entire cleaning and sanitation process. Note: It is important to take every precaution when dealing with any individual who has an injury or illness.
HEAT

All four buildings have central forced hot water heating systems but no air-conditioning. Residents are asked not to turn off the radiators and leave windows open in the cold weather, as the radiators may freeze, causing serious damage. Residents may be held responsible if the pipes freeze because of such actions. If you have a problem with your radiator, contact the GSAS Facilities Manager, gsasfm@fas.harvard.edu.

Residential Heating Policy. State sanitary code requires that we provide heat September 15–June 15, as needed to maintain a minimum temperature in the buildings of 68 degrees Fahrenheit/20 Celsius during the day and 64 degrees Fahrenheit/18 Celsius at night. We attempt to maintain a comfortable temperature for all residents, while also being conscious of energy conservation and the limits of our facilities.

Reporting Heating Problems. If your room is considerably cooler than 68 degrees, please first check to ensure that your windows and storm windows (where applicable) are completely closed. If your windows are open even a crack, please close them and allow the room several hours to warm up before reporting a heating problem. If you report a heating problem and the operator who is dispatched discovers that your window is open, you may be charged for the cost of the maintenance call (typically $100-$200).

Control of Heat in the Student Rooms for Child and Richards Halls. The temperature of the circulating hot water depends on how cold the temperature is outside. As the weather gets colder, the water temperature becomes hotter. There is no way to control room temperature on an individual basis. The water temperature is set to heat the rooms to 68 degrees. If your room is considerably warmer or cooler than 68 degrees, please inform the GSAS Facilities Manager.

Control of Heat in the Student Rooms for Conant and Perkins Halls. To prevent rooms from overheating, each radiator has an automatic control valve that may be adjusted by the occupant. This valve is meant to give you control of the heat level in your room and to prevent waste of energy. If your room is considerably warmer or cooler than 68 degrees, please inform the GSAS Facilities Manager.

Instructions for operating radiator control valves in Perkins and Conant Halls:

1. Locate the gray handled dial protruding from the valve. The valve is attached to the radiator, which in some rooms is encased in a cabinet.
2. Select the setting between 1 (lowest temperature) and 5 (highest) on the dial at which you are most comfortable. The highest temperature available is approximately 70 degrees. If the room is too warm, select a lower dial setting. Forcing the valve beyond the maximum setting will not produce more heat, and may damage the valve. Opening the window wastes energy. Removing or damaging the valve eliminates your control and can also waste energy.
3. Never turn the dial below the snow flake symbol. This turns the heat entirely off and risks allowing the pipes to freeze.

Storm Windows. In Perkins and Conant Halls, each window has an exterior storm window, in addition to the inside glass window. The storm window is the most exterior window in Conant and Perkins rooms. Residents in these buildings should pull the storm windows down during colder months in order to keep the room warm. If residents are having trouble with the storm windows, they should contact the GSAS Facilities Manager.
INSECT/PEST CONTROL

Bugs, including cockroaches, are introduced into buildings from various sources. To minimize problems, please observe the following:

- Keep food in tightly covered containers.
- Wipe up water, spills, and crumbs.
- Sweep or vacuum regularly.
- Do not leave damp clothes, sponges, etc. in cabinets or closets.
- Do not feed squirrels or leave food on the windowsills.

For pest problems, please notify the GSAS Facilities Manager in order to treat the problem.

INSURANCE

Articles of personal property are brought onto the premises of the University at the sole risk of the owner. Student property insurance is available through most private insurance companies. Applications for one such private insurance company, National Student Services, Inc., are available in the GSAS Office of Residential Life, Dudley House B2. Most insurance companies offer rental insurance as well, so we encourage students to explore different options for insurance to find the right one for them.

LAUNDRY ROOMS

Laundry rooms, equipped with machines that accept both Crimson Cash and coins, are located in the basement of each residence hall. Profits from the laundry machines help subsidize the operations of the Graduate Dormitory Council (GDC). Problems with the washers and dryers should be reported to the GSAS Facilities Manager. Irons and ironing boards are supplied in each laundry room by the GSAS Facilities Office. Residents are asked not to remove irons or ironing boards from the laundry rooms. Also, Laundry View allows residents to check on their laundry, or to check on availability of machines. Go to www.laundryview.com for more information.

Laundry rooms should be used with regard for other residents. Please adhere to the following guidelines when using the laundry facilities:

- Do not bleach or dye clothes in the washing machines.
- Remove clothes from washers and dryers promptly, so that other residents may use the machines.
- If you must remove someone else’s clothes from either the washers or dryers, do so with care.
- Any clothes that need hand laundering should be done so in the laundry room sink. It is not appropriate to hand launder clothes in the kitchen or bathroom sinks.
- Do not remove the irons or ironing boards from the laundry rooms.

Abandoned clothing is removed from laundry rooms each week and placed in the clothing recycling bin outside Perkins Hall.

In order to most energy efficient as possible, please follow these tips when doing laundry.

FILL UP: Always wait to do a full load of laundry.
CHILL OUT: Use cold water for regular loads, warm for heavily soiled, & avoid hot water all together.
CUT DOWN: Use only 2 tablespoons of detergent to avoid additional rinse cycling. It’s all you need!
DETOX: Use plant-based, biodegradable, phosphate-free detergent & oxygen or hydrogen peroxide bleach.
RECYCLE: Empty detergent containers go in the recycling bin.

LOUNGES

The GSAS residence hall lounges are primarily for the use of GSAS residents and are designed to encourage a social and communal atmosphere within the halls. The following policies have been created in order to help foster this atmosphere. At the same time, these policies are meant to provide a clear set of guidelines for residents to follow if and when they want to use any lounge space for any informal or formal gathering.

In summary, the GSAS lounge use policy is as follows:

- For any gathering of more than 7 people in attendance, a lounge needs to be reserved through the GSAS Office of Residential Life.
- A gathering of any size must have a 70:30 percent (or 7:3) resident to non-resident ratio. Requests to have a gathering of greater than 30% non-residents in attendance will be considered on a case-by-case basis by the GSAS Office of Residential Life.
- For events of 7 or more people, lounge reservations must be made at least 72 hours in advance by sending an email to the GSAS Office of Residential Life (gsashouse@fas.harvard.edu or gsasreslife@fas.harvard.edu). For events of 20 or more people, lounge reservations must be made at least 1 week in advance.
- These policies apply to all lounges (reservable or non-reservable).
- Residents of the hall do not need to reserve the lounge(s) on their own hall for floor gatherings (attended by other members of the immediate hall). However, these floor gatherings are still subject to quiet hours and other GSAS policies.
- For gatherings of 20 or more people, an additional set of guidelines must be followed (see below).

Lounge-Use Guidelines

Number of People: Use of a lounge / common space for an event or gathering with 7 or more people in attendance must be reserved in advance. The lounges that can be reserved are listed below.

Resident / Non-Resident Ratio. For all gatherings or events that happen in the residence halls, the resident to non-resident ratio must be 7 to 3 (70% residents to 30% non-residents). This means, if you have an event with 10 people, at least 7 must be residents of the GSAS residence halls; a maximum of 3 may be non-residents. Gatherings with a non-resident attendance of more than 30% will be considered for approval on a case-by-case basis by the GSAS Office of Residential Life.

Lounge Reservations. For all gatherings of 7 or more people, lounge reservation requests must be sent at least 72 hours in advance to the GSAS Office of Residential Life; for events of 20 or more people, these requests must be received at least one week (7 days) in advance. Requests are managed on a first-come, first-served basis. Requests are only accepted through email. The person sending the request will serve as the point person for the event, and will be emailed a confirmation, as well as a guideline for policies, by the end of the next business day. For events of 20 or more people, one person must be designated the Event Organizer; this person must review and complete the Event Policy Form. Please see below for more information on lounge reservations requests.

Residents of the Floor: Residents (regardless of the number) having an event or gathering on their floor do not have to reserve the lounge on their floor. However, quiet hours and all other GSAS policies are applicable.

Larger Gatherings (20+): For gatherings of 20 or more people, the following process must be followed.

- A lounge reservation request must be sent to the GSAS Office of Residential Life at least one week (7 days) in advance of the event.
- Given availability, the GSAS Office of Residential Life will assign the event to the best available lounge.
- There must be one person designated as the Event Organizer.
- The Event Organizer must review and complete the Event Policy Form (available at the GSAS Office of Residential Life or through email). The Event Organizer must agree to follow all policies. Failure to follow these policies could result in disciplinary action, including fees associated with any damages to the lounge area(s).

Lounge Reservations
There are 6 lounges that can be reserved for use. They are the following lounges:

- Conant Hall 1st Floor - Lounge A (with TV)
- Conant Hall 2nd Floor - Lounge B (near kitchen)
- Perkins 2nd Floor TV Lounge
- Perkins 3rd Floor TV Lounge
- Child Basement TV Lounge
- Richards Basement TV Lounge

In order to reserve a lounge, residents must send a request to the GSAS Office of Residential Life at gsashouse@fas.harvard.edu or gsasreslife@fas.harvard.edu. A lounge reservation request must be sent
at least **72 hours in advance** for approval (for events less than 20 people) or at least **1 week in advance** (for events of 20 or more people). In your request, please include the following:

1) Lounge you are requesting to reserve  
2) Date  
3) Time frame (please include set-up and clean-up time)  
4) Nature of the event

Please note:

- Reservations are on a first-come / first-served basis.  
- Lounges cannot be reserved for more than 6 hours.  
- Reoccurring events (regular, repeated bookings of the same event) will not be approved.  
- Kitchens may not be reserved.  
- The GSAS Office of Residential Life will respond to all reservation requests by the close of the next business day.

**Exceptions:** All requests to hold events not satisfying all above policies will be extensively reviewed on a case-by-case basis by the GSAS Office of Residential Life. These requests are approved or not approved through the GSAS Office of Residential Life.

**General Lounge-Use Policies:** When using any lounge, please follow the policies outlined below.

**Admission.** Events in the GSAS residence halls should be open only to residents and their guests. Lounges in the GSAS residence halls may not be used for events open to the general public.

**Alcohol.** A Student Event Services team (SES) member is required to staff parties at which alcohol will be served and that will have 30 or more people in attendance, or are open to all floors of a residence hall, or all four of the GSAS residence halls. The GSAS Office of Residential Life reserves the right to require the presence of a SES team member at any event held in the GSAS residence halls if alcohol is being served. Information about SES coverage must be processed at least three weeks in advance of the party.

The laws of the Commonwealth of Massachusetts regarding alcohol must be observed. It is illegal for anyone under the age of 21 to possess alcohol. It is also illegal to provide alcohol to anyone under the age of 21.

The Event Organizer will be held responsible for any infractions of the laws that take place at the event. It is the responsibility of the Event Organizer to closely monitor all serving of alcohol that takes place at the event.

The Event Organizer must ensure that nonalcoholic beverages and food are available. Alcohol must not be sold at events held in the GSAS residence halls.

Event Organizers must prominently post copies of flyers at the location where alcohol is being served with the following text, “We would like to remind you that there are a number of significant factors and responsibilities involved in the serving and consumption of alcoholic beverages. It is a punishable offense in the state of Massachusetts to provide alcohol to someone who is under 21 years of age. Furthermore, there may be legal liability for serving alcohol to someone that is or becomes intoxicated. Please do not put the servers in the uncomfortable position of refusing to serve you an alcoholic
beverage, and please monitor your consumption of alcoholic beverages. Thank you for your cooperation.” Preprinted copies of this flyer are available at the GSAS Office of Residential Life.

**Building Access.** Event Organizers must ensure that no entry doors are propped open since propped doors compromise the security of the building for all residents. If an Event Organizer expects guests who are not residents of the GSAS residence halls, he or she is responsible for appointing a door monitor to stand at the building entryway and let guests in. Guests must not knock on residents’ windows for entry to the building.

**Condition of Room.** The Event Organizer must ensure that the condition of the space is the same at the end of the event as it was at the beginning of the event. All trash must be collected and removed. Floors should be cleaned by vacuuming, sweeping, and/or mopping if necessary. This includes surrounding areas including kitchens, bathrooms, and hallways. If the room or surrounding area is left in unacceptable condition, a cleaning fee will be charged to the Event Organizer’s term bill.

**Conduct.** It is the responsibility of the Event Organizer to ensure proper conduct of all guests. If you need assistance, call on your RA, the RA on duty, or the University Police. Helpful numbers include:

- Harvard Police Department: 617-495-1212
- Fire Department: 617-495-1212
- University Health Services: 617-495-5711

RAs are generally the first to respond to any complaints regarding events held in the residence halls. If it is necessary for an RA to follow up on a complaint during a party, he/she will ask to speak with the Event Organizer who should be present at the event. The RA will work with the Event Organizer to ensure the complaint is resolved.

**Individual Resident Room Events.** Events held in individual rooms must be confined to that room. Gatherings may not overflow into the hallway. If residents plan to have 7 or more people in their room, they must inform their RA and all of the other residents of their floor about the event at least 48 hours in advance of the event. The laws of the Commonwealth of Massachusetts regarding alcohol must be observed. For more information regarding serving alcohol in the residence halls, read the “Alcohol” section of these event policies.

**Harvard University Police.** The GSAS Office of Residential Life reserves the right to require a police detail at large events. Any RA, member of the GSAS staff, or University police may “close down” an event if they feel there is excessive noise or disorderly conduct.

**Noise.** Large-scale events cannot be held on nights prior to regularly scheduled class days or during reading or exam periods. Noise should not be audible from a resident’s room during quiet hours. Quiet hours are as follows:

- Sunday-Thursday, 10:00 p.m.-7:00 a.m.
- Friday-Saturday, 12:00 a.m.-9:00 a.m.

Please see the section of this handbook on “Noise” and “Quiet Hours” for additional information about quiet hours.
LOST AND FOUND

Any items that have been found should be turned in to the GSAS Mail Center, Perkins Hall Basement.

MAIL/PACKAGE DELIVERY

The GSAS Mail Center is located in the basement of Perkins Hall. Both mail and packages are received in the Mail Center and distributed to residents of the GSAS residence halls. Harvard University Mail & Distribution Services (HUMS) administers the GSAS Mail Center. Questions about mail and package service should be addressed to the GSAS Mail Center at 617-496-3037.

Mailing Address. All mail and packages must be addressed to a current resident with the building, street and room number listed properly and correctly. Mail and packages not addressed properly may be returned to sender. Residents are not allowed to let other persons use their address.

Mail sent to residents of the GSAS residence halls should be addressed as follows:

Your Name
GSAS Mail Center
Name of Residence Hall, Room #
Street Address
Cambridge, MA 02138

Street addresses for the residence halls are as follows: Child Hall: 26 Everett Street; Richards Hall: 24 Everett Street; Perkins Hall: 35 Oxford Street; and Conant Hall: 36 Oxford Street.

Mailboxes. Mailboxes are located in the GSAS Mail Center in the basement of Perkins Hall, Room 18.

Mail Forwarding. Mail received after the end of the academic year or after a resident vacates his/her room will be forwarded to the address on file at Harvard’s Student Mail Forwarding Center. To ensure proper delivery, residents should update their address through the HUMS website: http://www.hums.harvard.edu/mail-delivery/student-mail-forwarding.

Students are advised to make direct notification regarding change of address to all University offices, family, friends, banks, credit card companies, law firms, and other important persons or businesses to ensure faster processing of summer addresses and to prevent interruptions or delays in receiving mail.

Residents should be aware that bulk mail will not be forwarded. This includes magazines and many book and music club mailings.

After you have vacated the GSAS residence halls, questions regarding mail forwarding should be addressed to the Harvard Student Mail Forwarding Center, hsmfc@harvard.edu. The Mail Forwarding Center also has a hotline for dealing with mail problems - call 617-496-MAIL (617-496-6245).

Packages. Residents will receive a package notification email when they have a package waiting. Packages can be picked up in the GSAS Mail Center, Room 18, Perkins Hall Basement, Monday-Friday, 8:00 a.m. to 12:00 p.m. and 12:30 p.m. to 3:30 p.m.; and Saturday, 10:00 a.m. to 2:00 p.m.

There are no package pick-up services on Sundays or holidays. Your student identification card should be presented to the Mail Center staff person when retrieving a package.
Packages sent via Priority Mail, Federal Express, Overnight, or any other special delivery service are handled in the same manner as are packages received from the US Postal Service and United Parcel Services (UPS). University policy does not allow delivery of such packages to the rooms of individual students. It is the responsibility of each individual student to ensure that s/he picks up packages in a timely manner, if they are urgent in nature. If the package is extremely urgent, you may wish to make arrangements to have it delivered to an office or lab address, if possible.

Note: Residents should not ship packages to the GSAS Mail Center that will arrive on campus before they move into their room. The GSAS Mail Center does not have the capacity to hold packages for students who are not yet residents. Packages should only arrive on the day the resident arrives, or thereafter. Packages that arrive before the day a student is designated to move in will be returned to the sender.

Shipping Packages. There is no way to ship packages from the GSAS Mail Center to an outside address. Residents must ship packages at a US Post Office or other shipping outlets such as the UPS Store or the FedEx Office.

US Postal Services. The nearest US Post Office is located at 125 Mt. Auburn Street (next to Kinko’s Copies). The phone number is 617-876-3883. The Post Office is open during the following hours: Monday-Friday: 7:30 a.m. - 6:00 p.m.; and Saturday: 7:30 a.m. - 3:00 p.m.

Residents who anticipate moving frequently during their stay at Harvard, who rely heavily on mail service, or who do not have access to an office/department address, may want to consider renting a post office box from the US Post Office. It offers residents a permanent mailing address for the duration of their stay at the University.

PARKING/MOTOR VEHICLE REGISTRATION

The University suffers from a general lack of parking facilities in Cambridge; therefore, Harvard Transportation & Parking strongly discourages students from bringing a vehicle to the University. The Office of GSAS Residential Life and the Transportation & Parking office encourage students to utilize the MBTA (public transportation).

Student parking in Cambridge on University property is limited to those who have mobility issues and cannot use the shuttle van service (as certified by a medical doctor). Additionally, parking on Cambridge streets, which requires obtaining a parking permit issued by the Cambridge Traffic, Parking and Transportation Department, can be challenging. Information on parking available to GSAS students can be found on the Harvard Transportation & Parking website, http://www.transportation.harvard.edu/parking.

Visitor Parking. When available, visitor permits for campus lots in Cambridge may be purchased at the Parking Services Office, located on the 8th Floor of the Smith Campus Center, 1350 Massachusetts Ave., Monday through Friday, between 8:00 a.m. and 5:00 p.m.

Visitor permits currently cost $16.00 per day on weekdays, $7.00 per weeknight, and $7.00 per day on weekends. Students can also purchase one-day visitor permits at https://www2.uos.harvard.edu/cgi-bin/permit/purchase.pl.
RECYCLING/SUSTAINABILITY EFFORTS

GSAS is committed to reducing the environmental impact of its residence halls by minimizing waste, encouraging reuse, and maximizing recycling.

Recycling bins and signs have been placed in lounges and kitchens throughout the halls. Thanks to Harvard’s Single Stream Recycling program, residents can use the same recycling bin for all recyclables, including: all paper, cardboard, metal cans and foils, bottles, jars, and plastic and glass containers.

Items that are excluded are coffee cups, plastic wrapped paper, loose plastics, food or pizza boxes, tissues and napkins, paper cups and plates, carbon paper, caps and lids, glass mirrors, china plates or cups, light bulbs, window pane glass, laboratory glass, metal items other than cans or foils, plastic shopping bags, films, and non-container plastics.

Green Computers and Monitors. Residents are encouraged to purchase EPEAT and Energy Star certified electronics. Environmentally friendly electronics are available through the HUIT Sales Center in the basement of the Science Center, or online. More information can be found here: [http://huit.harvard.edu/important-information-tps-personal-purchases](http://huit.harvard.edu/important-information-tps-personal-purchases). EPEAT certifies computers based upon their environmental performance, including energy conservation, product longevity, elimination of environmentally sensitive materials, design for end of life, and product packaging. For more information, visit [www.epeat.net](http://www.epeat.net).

Power Save Mode. Setting computers and monitors to sleep mode takes only a few seconds, but can reduce electricity use by 87 percent less, as compared to leaving it on.

Electronics Recycling at Harvard. Electronics waste, also called e-waste, should be recycled in the labeled bin in the Facilities Manager’s office. E-waste includes all batteries and light bulbs (placed in provided bags), headphones, iPods, ink cartridges, cell phones—anything electronic! There are also battery recycling containers in the basement of each residence hall. Large items, such as printers, may also be brought to the Facilities Manager’s office.

Green/Zero Waste Events. GSAS Green Program can assist Event Organizers in minimizing environmental impacts of their events. There are several resources available on-line ([http://green.harvard.edu/](http://green.harvard.edu/)), including “Zero Waste Guidelines,” “Green Catering” checklist, posters and information on vendors that offer biodegradable sugarcane plates and utensils. Harvard’s Recycling Services offer composting services on the day of the events (617-495-3042).

Water. Residents are encouraged to take the following steps to reduce water use in the GSAS residence halls.

- Report dripping faucets, running toilets, and leaks to the Facilities Manager ([gsasfm@fas.harvard.edu](mailto:gsasfm@fas.harvard.edu) or 617-495-0747). A dripping faucet can waste 20 gallons of water a day. A leaking toilet can use 90,000 gallons of water in a month.
- Run washing machines only when full.
- Turn off the water while brushing your teeth and shaving.
- Shave a minute off your shower.
- Much of the world gets by on 2.5 gallons of water per day. The average American uses 400 gallons per day.
Residents of the GSAS residence halls are encouraged to recycle materials and reduce waste to benefit both Harvard and the environment.

SECURITY GUARDS

Between the hours of 11:00 p.m. and 7:00 a.m., a security guard makes rounds through the GSAS residence halls to provide a visible presence. Residents should feel free to ask the guard for any assistance they may need.

SMOKE DETECTORS/FIRE ALARMS

A smoke detector has been installed in your room for your protection. The detector utilizes the photoelectric principal of smoke detection, making it sensitive even to incipient (smoldering) fires.

The detector is connected to a constant source of electricity and uses no batteries. The detector’s red or green light should be on at all times; this indicates that it is functioning properly. If you notice that the light is off, please call the GSAS Facilities Manager immediately at 617-495-0747. During after hours or weekends, notify the Operations Center.

Do not paint or cover the detector unit. Paint or other foreign matter on the cover may prohibit or retard smoke from entering the detector.

If your room’s smoke detector is set off accidentally (whether due to smoke or mechanical problems), do not attempt to stop the alarm by tampering with the unit. Please call: 617-495-0747 or 617-495-5560 on weekdays, or 617-495-5560 on nights and weekends.

Each residence hall is also equipped with a separate smoke detection system. Any detector in a stairwell or corridor can initiate the building alarm when a predetermined concentration of smoke reaches it. This alarm sounds like the manually initiated alarms and is a signal to evacuate.

For student safety and readiness, fire drills are held in all GSAS residence halls at least once each year. All students in the residence hall at the time of the drill must participate. When a building fire alarm sounds in a residence hall, all occupants of that hall must evacuate the premises. Refer to the “Emergency Procedures” section in this handbook.

STORAGE SPACE

There is limited storage space in the basements of Conant and Perkins Halls for current residents. Storage is meant for items such as boxes, trunks, luggage and other carrying items. Residents who store items should not expect to have access to these items during the academic year. The amount of storage space available for individuals will be determined by the GSAS Facilities Manager; typically, a maximum of 6 medium-sized storage boxes is permitted. All storage is at the student’s own risk; the University is not responsible for stored items in the event of loss, theft, or damage.

Any stored items must be labeled with your name, room number and residence hall and the date items were placed in storage. Storage tags are provided by the GSAS Office of Residential Life, and only boxes with official tags will be accepted. Stored articles must be removed prior to the end of the academic year in which they are stored.

Specific hours will be scheduled for residents to remove items from storage approximately two to three weeks before the official move out date. These hours will be posted on bulletin boards in the residence halls.
halls and communicated via the weekly email from the GSAS Office of Residential Life. Items not removed by the end of the academic year will be considered abandoned and will be disposed of by the University.

**Summer Storage.** Only students who will be housed in the residence halls for the summer and/or have submitted an on-time housing application for the next academic year may store items over the summer. Residents eligible for summer storage who have stored items during the academic year must remove these items and affix updated summer storage labels on them. Failure to do so may result in the disposal of the items stored during the academic year. Additional information and policies regarding summer storage will be distributed to eligible residents prior to moving out.

**TELEPHONES**

There is a telephone outlet in each room; however, residents must pay for their own service and supply their own telephone in order to use the phone outlet. Harvard University Information Technology (HUIT) uses MobileSphere to provide telephone lines, voicemail and pre-paid long distance service to students. If you are interested in activating your phone line and paying for phone service in your room, please contact the GSAS Office of Residential Life (gsashouse@fas.harvard.edu or gsasreslife@fas.harvard.edu). You will be billed for in room phone service through your student term bill account. For more information regarding in student telephone service, visit the HUIT website: http://huit.harvard.edu/pages/student-telephone-service.

If you have questions regarding telephone service, please contact HUIT Telecom at 617-495-4900 or huit-telecom@harvard.edu. You can also contact MobileSphere directly at 617-888-828-5236 or support@mobile-sphere.com.

**Public/Pay Telephones.** There is a pay phone located in the Northeast lobby of Perkins Hall. Pay phones are also located in Harkness Commons and the Science Center.

**TELEVISIONS**

There is at least one television lounge in each residence hall. Widescreen televisions with cable are located in the basement lounge of Richards Hall and in the first floor lounge of Conant Hall. Televisions with cable can also be found in the second-, third-, and fourth floor lounges of Perkins Hall and in the Child Hall basement TV lounge. See the Lounge/Event Reservations section for how to go about reserving a lounge.

**VACUUM CLEANERS**

Vacuum cleaners are available for use by residents. A vacuum cleaner is located on each floor. Additionally, vacuum cleaners may be borrowed from the Facilities Office at Perkins Hall, Room 110. Contact the Facilities Manager for more information regarding borrowing a vacuum: gsasfm@fas.harvard.edu.

**VENDING MACHINES**

Vending machines, including candy, soda, and juice machines, can be found in various locations within the GSAS residence halls. A portion of the revenue generated from the vending machines is used to sponsor the Graduate Dormitory Council’s (GDC) activities. A resident who loses money in any of the machines should contact Ackers Vending Services, Inc., the outside vendor that supplies and maintains
the vending machines. Ackers can be contacted at (617) 265-1777. The GSAS Facilities Manager can also be contacted.

Residence Hall Rules and Regulations

The rules and regulations described below are designed to enhance the quality of life for everyone in the residence halls. Many of them, particularly those regarding noise, resulted from suggestions by residents themselves. As a member of the residence hall community, each resident is expected to comply with these rules and regulations. If you have any concerns, questions, or suggestions, please see your RA or contact the GSAS Office of Residential Life.

Students who violate these rules and regulations are subject to fines and/or disciplinary action, and may be asked to move out of the residence halls.

DISCIPLINE AND TERMINATION OF RESIDENCY

Residents who violate any regulation or policy in the Handbook for Students of the school in which they are enrolled, or in the GSAS Residence Hall Handbook, may be subject to fines, removal from the residence halls, or other sanctions, as deemed appropriate by the GSAS Dean for Student Affairs and GSAS Office of Residential Life, and also may be subject to action by the Administrative Board of the school in which they are registered. Please note in particular that hostile, intimidating, harassing, or threatening behavior is a serious infringement on the rights and privileges of others and will not be tolerated by the University.

Ordinarily, residents who have violated GSAS regulations or policies will be issued a warning by a representative of GSAS Student Affairs and given the opportunity to correct or make up for infractions prior to the imposition of more stringent residential sanctions. However, GSAS may require a resident to leave the residence halls immediately if GSAS, in its sole discretion, deems it necessary for the well-being of the residential community. Further, if GSAS determines that a resident has repeatedly or seriously violated a regulation or policy after being issued a warning, GSAS ordinarily will require the resident either to leave the residence hall immediately, or to find alternate housing during the subsequent summer and/or academic year(s).

GSAS reserves the right to amend these policies as necessary. A student required to leave a GSAS residence hall for disciplinary reasons will not be permitted to return to residency in the GSAS residence halls for the remainder of his or her enrolment at Harvard.

FACILITIES ACCOUNTABILITY

Any resident who causes damage to the GSAS residence hall facilities or property, including that of other residents’, either through willful actions or negligent behavior, may be held responsible for the full financial cost of any necessary repairs and/or replacement of lost property, and may have his or her housing contract terminated immediately. Residents who leave their room damaged at the end of the year will be term billed a facilities damage fee. All sanctions are at the discretion of the Facilities Manager, GSAS Office of Residential Life, and GSAS Dean for Student Affairs.
AIR CONDITIONERS

The installation of air conditioners is forbidden without the written recommendation of a physician and approval by the University Disabilities Coordinator, GSAS Facilities Manager, and Department of Facilities Maintenance.

Please note: The GSAS Facilities Manager installs air conditioning units for GSAS summer residents. Air conditioners will be provided only for the length of the summer contract.

ALCOHOL AND DRUGS

The unlawful possession, use, or distribution of illicit drugs and alcohol by students on Harvard property or as a part of any Harvard activity is a violation of University rules and of the law. Possession, use, or distribution of certain nonprescription drugs, including marijuana, amphetamines, heroin, cocaine, and nonprescription synthetics, procurement or distribution of alcohol if one is under 21 years of age, and provision of alcohol to anyone under 21 years of age are violations of law and of Harvard policy.

The University cannot be considered a protector or sanctuary from existing laws of the city, state, or federal government.

In addition, students are encouraged to weigh the seriousness of potential loss of function that may come from ingesting illicit drugs or too much alcohol. Because of the considerable health hazards involved in drug and alcohol use, administrative, medical, and psychiatric help for students having drug problems or difficulties controlling their use of alcohol is available on a confidential basis from the GSAS Office of Student Services and other officers of the University, and at University Health Services. Any member of the University may make use of the Health Services on an emergency basis, day or night. GSAS students should refer to The GSAS Handbook for Students (http://handbook.gsas.harvard.edu/gsas-handbook) for more information.

ANIMALS

Except for living assistance animals, no animal, including birds, fish, and reptiles, may be kept in rooms in the residence halls. Pets are not allowed to visit.

APPLIANCES

Students should not have any appliance that exceeds 1500 watts in any individual room. Microwaves, coffee makers, hot pots, rice cookers, percolators, crockpots, toasters, etc., must not be used in individual rooms but may be used in the kitchens. Pressure cookers are prohibited throughout the halls.

Items that are used in the kitchen and are left in there are not the responsibility of GSAS. Items left in kitchens may be subject to use by other residents. In addition, the following rules apply to use of appliances:

- Kitchen appliances should not be left unattended while in use, especially toaster ovens, toasters, stove tops, ovens, hot pots, and microwaves, as these are often the cause of burnt food and resulting fire alarms. Rice in rice cookers can be left for brief moments of time, but can never be left for more than 10 minutes or in individual rooms.
- Kitchen appliances should be stored on the shelves in the kitchen, or in one’s individual room. Do not store appliances (rice cookers, coffee makers, blenders etc.) on the kitchen counters.
- No electrical appliance may be connected to any light fixture socket.
• Irons must be unplugged when not in use.
• Refrigerators in student rooms may not exceed four cubic feet.
• Personal refrigerators may be used in individual rooms only.
• Micro-fridges (defined as personal refrigerators with microwaves attached to them) are not allowed in the GSAS residence halls.

EXTENSION CORDS

Extension cords should only be used for lamps, radios, and televisions. Extension cords should be connected to wall or base plugs only and should be disconnected when not in use. No cord may be used except standard twin cords, which meet the requirements of the National Electric Code. Cords should be no longer than ten (10) feet. Appliances with high amperage (e.g., refrigerators, hair dryers, irons) generate excessive heat that constitutes a safety hazard when connected to an extension cord, and thus extension cords must not be used for such appliances.

No extension cord may be plugged into another extension cord, and only one appliance may be plugged into an extension cord at a time. Cords must be mechanically and electrically in perfect condition. No spliced cords will be allowed. No cords are to be permanently fastened to the building. No cords are to be run through partitions or doorways, or under carpets, rugs, or furniture.

FIRE REGULATIONS

The policies below are in place to ensure a safe residential environment for all occupants of the halls. Residents who do not abide by these policies not only demonstrate a lack of consideration for fellow residents but also put the lives and property of other residents at risk.

Policies Regarding Individual Rooms.

The following items are prohibited in the residence halls:

• Candles, incense, matches, or other sources of open flame
• Cooking equipment (including but not limited to microwaves, hot pots, rice cookers, toasters, and coffee makers). If you have any of these appliances for use in the kitchen, they should be stored in your room and should not be plugged in. Appliances that appear to be in use in the room will be removed and placed in storage for the remainder of the academic year.
• Halogen lamps (both floor and desk lamps)
• Space heaters
• Flammable, combustible, or explosive liquids, gasses, or solids (fuel, propane, lighter fluid, butane lighters, charcoal, flammable cleaning products, etc.)
• Hazardous personal property (firearms, etc.)

In addition to the prohibited items listed above, residents must keep in mind the following safety guidelines:

• Rooms should be kept clean and tidy without excessive paper or rubbish accumulation. Excessive rubbish can be a serious fire hazard.
• Extension cords must be in good condition and should be no longer than 10 feet.
• Extension cords and outlets must not be overloaded. For maximum safety we recommend that residents purchase power strips with built-in circuit breakers.
• Electrical cords must not run under carpeting.
Smoke detectors must not be obstructed or otherwise tampered with to inhibit normal functioning.

Finally, residents should be aware of the following policies on room decorations:

- No ceiling decorations (tapestries, fish nets, posters, fabrics, etc.) are permitted in the GSAS residence halls.
- Wall decorations (including but not limited to pictures, posters, tapestries, curtains, etc.) may only cover a maximum of ten percent of total wall area.
- Tapestries, curtains, and other fabric decorations must have a tag showing proof of fire resistance, must be hung vertically, and must be at least 18 inches from any heat source (electrical outlets and/or switches, lights, etc.).
- Tapestries, posters, fabric items, and lights may not be draped from walls but must be installed fast to them.
- At least six (6) inches of space must be left between wall decorations.

**Policies Regarding Common Areas.** We ask that residents please keep in mind the following fire safety policies regarding common areas:

- Fire escapes are only for evacuation in case of fire. Residents are not allowed on fire escapes except during emergencies. Fire escapes should not be used as smoking areas.
- Abuse of or tampering with fire alarms, smoke detectors, or extinguishers is strictly forbidden.
- No objects may obstruct fire exits (including hallways, fire escapes, and windows). Items (including mattresses, furniture, bikes, boxes, shoes, etc.) should not be left in hallways at any time.
- Hallway doors must be kept closed at all times.
- Emergency exits must not be blocked.

**GUESTS**

Like other policies, the guest policy is intended to enhance the comfort and safety of both residents and guests and is not meant to infringe upon residents’ privacy. Knowing whether guests are present is useful in emergency situations and helps minimize the possibility of mistaking a guest for an intruder.

Rooms in the GSAS residence halls are licensed for single occupancy, and communal facilities are designed to accommodate only residents and occasional guests. Therefore, we ask that you limit the number and duration of stay of guests in your room. Residents may host one guest at a time. Guests may not stay with residents for more than an occasional, brief, temporary visit (three days) without the permission of the GSAS Office of Residential Life. Guests are not permitted to stay in the residence halls on a consistent basis; e.g. weekly.

To have a guest stay with you for a period of more than three days within a seven-day period, a guest form must be completed and returned to your RA or the GSAS Office of Residential Life at least two (2) weeks prior to the guest's arrival. Residents are encouraged to submit guest forms as far in advance as possible to allow ample time to find alternative housing in the event the request is not approved by the GSAS Office of Residential Life. Guest forms are available on the bulletin board of each floor or from the GSAS Office of Residential Life.

Permission must be granted for the duration of the guest's stay via email from the GSAS Office of Residential Life. If there are concerns about the length of stay or number of guests, the GSAS Office of
Children under the age of 12 may not stay overnight in the residence halls.

Remember that a guest must follow all the rules of the residence halls as stated in the GSAS Residence Hall Handbook, and the resident is responsible for the actions of his/her guest. The same policies regarding communal courtesy also apply to guests.

Residents must not allow guest access to a residence hall or room, or permit someone to stay in their room, when they are not present. This applies to all use including overnight, weekends, vacations, and holidays. Guests should never be present in the residence halls unaccompanied by their resident host. Residents must make arrangements to let their guests into the building themselves. Guests should not piggyback into the residence halls behind another resident. Please see the section of this handbook on “Piggybacking” for additional information about this policy.

Because guests should not be in the residence halls without their host, keys for guests are not available. In addition, residents are not permitted to make copies of their keys for guests. Duplication of keys is a breach of security and may result in disciplinary sanctions including fines and/or termination of the remainder of the resident’s housing contract.

Violation of the guest policy is a serious matter. The guest of a resident who violates the policy will be asked to leave the residence halls immediately. Furthermore, the remainder of the resident’s housing contract may be cancelled, and the resident may be asked to vacate his or her room.

HOLIDAY DECORATIONS

Safety guidelines set by the University and by the City of Cambridge are as follows:

- Evergreen decorations and fresh trees are a potential fire hazard and are therefore prohibited indoors. Only artificial nonflammable Christmas trees and decorations are permitted.
- All decorations must be made of fireproof material and arranged so that they are not hazardous in any way; they should not block, hide, or camouflage any exit.
- Candles or lamps with open flames are not permitted.
- All electrical decorations should be inspected for wear and tear before plugging them in. All extension cords and electrical decorations must be labeled as “Underwriters’ Laboratories” approved.

KEYS/LOCKOUTS

At the beginning of the academic year, each resident is issued a single room key. Keys should not be duplicated or given to anyone else, including other residents. Duplication of keys is a breach of security and may result in disciplinary sanctions including fines and/or termination of the remainder of the resident’s housing contract. Only original keys will be accepted for return at the end of the housing contract.

Residents who have locked themselves out of their room may call any one of the Resident Advisors to let them into their room. If a Resident Advisor is not available, the University Police may be called for assistance. The University Police should be contacted for all lockouts occurring between midnight and 8:00 AM. It is not appropriate to call and/or knock on one of the Resident Advisor’s doors after midnight.
regarding a lock-out. Residents who need to call the University Police should expect delays in being let back into their room or building. For the safety of the Harvard community, all calls received by the University Police are dispatched so emergency calls receive a higher priority. Lockouts are not considered an emergency call.

Residents who have lost their room key can get a replacement key from an RA or from the GSAS Office of Residential Life for a replacement fee of $25.00. Residents who have misplaced their keys may borrow a key from the GSAS Office of Residential Life for a period of one week (7 days) without being charged. If the key is not returned within this time, the GSAS Office of Residential Life will assume the key needed to be replaced, and the resident will be charged the $25.00 replacement fee.

The University will not normally change a room lock when a student has lost a key. A student may request such a lock change through the GSAS Facilities Manager for a minimum fee of $150.00 during regular work hours. Any lock changes during nights (after 3:00 p.m.), weekends, or holidays may cost up to $400.00.

While RAs have access to keys to assist residents in emergency situations, their role is not to have to respond on a regular basis to residents who are locked out. Residents are responsible for the keys issued to them and should always carry their keys with them when they leave their room, even for a short period of time.

To encourage personal responsibility in remembering one’s room key, residents will be asked to complete a “Lockout Form” each time they request assistance in accessing their room. Residents with more than two lockouts will be charged a fine of $10 for the third lockout, $15 for the fourth lockout, $20 for the fifth lockout and $25 for each additional lockout.

**KITCHENS/COOKING**

Cleanliness. The primary responsibility for ensuring cleanliness of kitchens lies with residents who must clean up after themselves each time they use the kitchen. This includes:

- Wiping up any crumbs or spills in the sink, on the counter, on the stove, in the microwave, around the toaster, in the refrigerator, and on the floor.
- Removing all non-communal food and kitchenware from the kitchen and storing it in individual rooms.
- Cleaning all dirty dishes immediately. Leaving dirty dishes in the sink, on the tables, and on the counter is unacceptable. Dirty dishes left for more than one week will be thrown away by the custodial staff.
- Cleaning spoiled items out of the refrigerator on a regular basis. Please keep in mind that only perishable foods should be kept in the refrigerator. Non-perishable foods can be kept in individual rooms, or on kitchen shelves.

The custodial staff will clean the kitchens with disinfectants daily. They will also wipe out the microwaves, clean out the toaster, and clean off the dish rack on a weekly basis. The refrigerators are emptied of all food items and cleaned quarterly. During these quarterly cleanings, any items not labeled with the round food labels provided in each kitchen will be discarded. Residents should contact a Resident Advisor if the supply of food labels runs out in the kitchen.

Kitchens that are not kept clean and sanitary may be subject to closure. Dirty dishes and cookware left in the kitchen may be thrown away.
**Cooking and Appliance Use.** Cooking food must be attended to at all times. This includes food on the stove, in the microwave, or in the oven. Kitchen heat detectors are very sensitive and alert the Cambridge Fire Department when activated. This requires the evacuation of the entire building and is a serious safety threat to all residents. Residents who leave cooking food unattended on the stove, in the oven, or in the microwave will be subject to review by the Director of Residential Life and may be asked to move out of the residence halls. To avoid setting off the fire alarm, please close the door and open the windows while cooking.

The preparation of meals is permitted only in the kitchens. Cooking appliances, such as hot plates, electric frying pans, small microwave ovens, rice cookers, and grill toasters, are not permitted in individual rooms. Pressure cookers are prohibited throughout the halls.

Residents should turn off all cooking appliances such as the stove, oven, toaster, or kettle as soon they are finished using them. Residents should also unplug kitchen appliances, such as toaster ovens, tea kettles, etc., when not in use.

**Food and Personal Items in the Kitchen.** Food and personal items left in kitchens are not the responsibility of GSAS. Items left in kitchen areas may be subject to use by other residents. We recommend that residents store any personal items they do not want other residents to use in their own room.

All food stored in common refrigerators must be wrapped and labeled with the resident’s name and room number using the round labels provided. Residents who anticipate storing large quantities of perishable food are encouraged to rent or purchase a small refrigerator for their own room.

**Use of Garbage Disposal.** A garbage disposal is located in the drain of the sink. It is used to grind food substances into a liquid form so they can run through the drain system. There are sharp blades inside the disposal that do the grinding. Bones, celery, coffee grounds, fruit pits, and paper, as well as hands, should never be placed inside of the garbage disposal. Cold water should always be running when the garbage disposal is in operation. If there is a problem with the garbage disposal, please report it to your RA or the GSAS Facilities Manager.

**Hygiene and Courtesy.** Personal rubbish should be disposed of in the trash barrels in the halls not in the kitchens. Brushing teeth, spitting, shampooing hair, cutting hair, etc., are restricted to the bathroom.

Residents are asked to work quietly in the kitchens, especially during late night and early morning hours. The noise from the kitchens, especially in Child and Richards Halls, can have a great impact on the residents who reside in the rooms next to them.

**MUSICAL INSTRUMENTS**

Drums, pianos, organs, violins, cellos, and electric guitars are not permitted. Other musical instruments may be played at a volume that does not disturb other residents. Practice rooms are available through the Music Department: [http://www.music.fas.harvard.edu/performance_practicerooms.html](http://www.music.fas.harvard.edu/performance_practicerooms.html). Please see next section on “Noise” for additional guidelines.

**NOISE**

There should be no excessive noise at any time in any part of the residence halls. This includes noise resulting from telephone conversations, the playing of radios, televisions, stereos, and musical instruments. Noise resulting from gatherings in individual rooms, and singing, must also be kept to a
minimum. Alarm clocks, answering machines, and slamming doors, which can also be sources of unreasonable noise, must be monitored by residents.

Each resident is responsible for ensuring that his/her alarm clock does not go off when he/she is not present in the room. If an alarm clock goes off and the resident is not in the room, a Resident Advisor may enter the room with another Resident Advisor or resident to turn the alarm off.

While every resident should be able to enjoy normal activity in his or her room during reasonable hours, a high degree of sensitivity to the needs of others is necessary in a communal living situation. It is expected that students will respect their neighbors’ concerns when asked to lower the volume of any loud noise.

Each student is expected to conduct him or herself properly at all times. The responsibility applies to individuals and groups both in public space (lounges, bathrooms, kitchens, and hallways, etc.) and individual rooms. Hallways should not be used as a gathering place during the evening. Conversations in kitchens and lounges should be kept at a reasonable volume. Residents in Richards Hall should refrain from using balconies for cell phone conversations. This disturbs both residents in the lounge and those who reside near the balconies.

**Quiet Hours.** Noise should not be audible from a resident’s room or outside a public space during quiet hours. These hours are: Sunday-Thursday, 10:00 PM to 7:00 AM;* and Friday-Saturday, 12:00 AM to 9:00 AM**

* Friday and Saturday quiet hours are enforced on nights prior to school holidays regardless of the calendar day.

** During reading and examination periods, Sunday through Thursday quiet hours are enforced regardless of the calendar day.

Resolving Noise Concerns. If a resident is disturbed by a neighbor, it is expected that the resident will communicate this concern directly to the neighbor involved. This communication should take place by speaking to the neighbor in person (not via email, text message, etc.). This communication must not take place by banging on the wall, screaming through the wall, or pounding on the floor or ceiling. Residents who are unsuccessful in resolving noise concerns with a neighbor or feel uncomfortable speaking with a neighbor directly should contact their RA for assistance.

A resident who acts without respect to a neighbor’s right to quiet and is asked repeatedly to quiet down without effect will be asked to move out of the residence halls and will be held financially responsible for the room until it can be reassigned.

**PERSONAL FURNISHINGS/FURNITURE**

All rooms in the GSAS residence halls are equipped with a bed, desk, desk chair, desk lamp, bookcase, and a bureau or closet shelving. Large rooms in Perkins Hall contain wardrobes instead of a closet.

Students are not allowed to remove University owned furniture from their rooms, and are not allowed to take University furniture out of public areas for use in their individual rooms. Students are also not allowed to “switch” furniture from one room to another for any reason. If a student has a medical reason for removing furniture or bringing in additional furniture, s/he should submit a letter explaining the circumstance along with a doctor’s note to the Disability Coordinator at their school. Students should also notify the GSAS Office of Residential Life that they are contacting the Disability Coordinator.
The GSAS Office of Residential Life will then follow up with the Disability Coordinator to make sure the student’s furniture needs are met.

It is the responsibility of individual residents, who have been given authorization, to remove and return University furniture to their rooms. Failure to return any removed furniture will result in a term bill charge of the replacement cost, a minimum of $75.00 per piece.

Students must maintain their personal furnishings in a reasonable state of repair.

Rented refrigerators must be removed by the rental agent before the student vacates.

POSTERS, SOLICITATION, AND BUSINESSES

A resident may neither operate a business out of his/her room nor list his/her residence hall address or telephone number in conjunction with any business enterprise. No firm, agency, organization, including student organizations, or individual shall solicit, circulate petitions, post notices, or distribute information in a residence hall. Unauthorized posters may be removed by the GSAS Office of Residential Life or Facilities Services.

QUIET HOURS

Noise should not be audible from a resident’s room or outside a public space during quiet hours. These hours are: Sunday-Thursday, 10:00 PM to 7:00 AM;* and Friday-Saturday, 12:00 AM to 9:00 AM.**

* Friday and Saturday quiet hours are enforced on nights prior to school holidays regardless of the calendar day.

** During reading and examination periods, Sunday through Thursday quiet hours are enforced regardless of the calendar day.

ROOFS

Students are not allowed on any roofs.

ROOM ASSIGNMENTS/VACATING PROCEDURES/ TERMINATION OF CONTRACTS

Only full-time, registered graduate students (except the Extension School) of Harvard University may be housed in the residence halls. All room assignments and reassignments are made by the GSAS Office of Residential Life. If you are assigned a room and then find that you no longer need it, you must notify the GSAS Office of Residential Life immediately in writing.

Although the contract for a room in the GSAS residence halls is for the entire academic year, occasionally students must leave the residence halls during the academic year. Residents are financially responsible for the room and meal plan for the duration of the entire contract. If the GSAS Office of Residential Life can reassign the room, the student will be released from financial responsibility when the new student moves into the room. If you are considering moving out of the GSAS residence hall before your contract ends, you should contact the GSAS Director of Residential Life to discuss procedures for vacating and your financial responsibility.

When leaving the GSAS residence halls residents should remember to do the following:

- Complete the “Room Vacate Form,” available at the GSAS Office of Residential Life or via email.
• Leave the room in the condition in which it was found. Excessive dirt or clutter will result in a term bill charge.
• Forward your mail. For more information, visit the Student Mail Forwarding Center website: http://www.hums.harvard.edu/mail-delivery/student-mail-forwarding.
• Vacate by the time required by the GSAS Office of Residential Life and the Facilities Manager. Residents who stay past the move out deadline will be term billed a late vacancy charge.
• Take all personal furniture. Any personal property left in student rooms will be discarded.
• Return room key. The fee for not returning your room key is $25.00.

ROOM—CONDITION OF

Room inspections are conducted prior to the arrival of the academic year residents. Upon check in, residents verify the condition of the room and make any notes on the “Condition of Room” form. The “Condition of Room” form should be turned into the GSAS Facilities Manager’s office. At the end of the year, this form is used to compare the condition of the room at the end of the year and at the beginning of the year. Residents are held financially responsible for any damage or loss to the original contents of the room and to the permanent surface of the room (for example, the walls and floor) beyond normal wear and tear. If damage occurs, a charge is placed on the student’s term bill.

The cost of removing excess trash, disposing of abandoned furniture and belongings, repairs for any damage to room or furnishings, and performing extraordinary cleaning of a room after the student’s departure, will be charged to the student. For example, the cost of filling nail holes, sanding, and painting one wall would be a minimum of $100.00 and could be more than $200.00. An administrative fee may also be charged in addition to the room damage fee.

To minimize damage to your room, we recommend adhering to the following guidelines:

Be careful not to attach anything to walls or other surfaces in a way that causes damage or leaves marks. No nails, tacks, picture hooks, or other objects that create holes or leave marks on a surface may be used on walls, doors, moldings, ceilings, or floors.

Masking tape, two sided tape, glue backed corkboards, or other adhesive should not be used. It is recommended that you hang loose posters with wall mounting tabs and framed pictures with fishing line and molding hooks. These items may be obtained free of charge from the GSAS Facilities Manager or your RA.

ROOM SAFETY INSPECTIONS

The University recognizes and respects your desire for privacy, especially within the context of a communal living environment. It is occasionally necessary for the University to exercise its contractual right to enter a room in the interests of maintaining an environment that provides for the health, safety, and welfare of you and your fellow residents. The following procedures have been developed as a guide for employees of the University and for residents to ensure the performance of duties and to maintain your privacy:

• Rooms shall be entered in your absence by authorized University personnel when there is cause to believe a situation exists that may jeopardize the health, safety, and welfare of the community, cause damage to a room or its furnishings, or in order to perform housekeeping, inspection, or maintenance functions.
• Written notification regarding the purpose of entry will be left in your room.
• Your room shall be entered only after knocking. Entry, following the knock, shall be preceded by a time lapse of sufficient duration to provide you the opportunity to open the door by yourself.

Residents of the GSAS residence halls should expect their rooms to be inspected at least once per academic year. Following the room safety inspection, residents will receive a copy of an inspection report outlining any violations. Prohibited items such as candles, incense, space heaters, and halogen lamps found in rooms will be removed immediately and placed in storage for the remainder of the academic year. Other safety hazards, such as overloaded electrical outlets, will be noted, and the resident will have one week to remedy the problem before a follow-up inspection of the room is conducted. Residents who fail to remedy safety hazards after the initial warning or who repeatedly violate safety policies may be asked to leave the GSAS residence halls.

Because of the University’s responsibility to assure compliance with fire safety and other regulations, as well as to maintain and improve residence hall rooms, room safety inspections will be made without prior notice. Questions about the room safety inspection process should be directed to the GSAS Office of Residential Life at 617-495-5060, gsashouse@fas.harvard.edu or gsasreslife@fas.harvard.edu.

SATELLITE DISHES

The installation of devices and equipment for capturing DIRECTV or other satellite signals is strictly prohibited.

SECURITY AND ACCESS

For the protection of residents, their belongings, and University property, doors must be locked at all times.

Residents will be asked to sign a receipt for the coded keys or temporary electronic access cards issued for the residence halls. Residents are responsible for returning these keys or cards, ordinarily in an envelope provided at the time they give up occupancy. Residents must request replacements for lost keys or cards from the GSAS Office of Residential Life. Each replacement during the term costs $25. In addition, a $25 charge is assessed for each key or card not returned in the manner detailed above when a resident vacates a room.

When residents lose their keys along with some form of identification, the lock to their room will ordinarily be changed as soon as it is feasible to do so. An exception will be made in those cases where there is no possibility that the keys can be retrieved. As outlined under “Keys/Lockouts,” residents will be charged a minimum fee of $150 for the lock change. When residents lose their electronic access cards along with some form of identification, the access system will be reprogrammed to deny access via the lost card as soon as the loss is reported to the Harvard Police. No exceptions will be made even if the card cannot be retrieved. The University must have access to all rooms in the residence halls; therefore, residents are forbidden to install locks or any other security device (e.g., slide bolts, drop chains, hook and eyes) to any doors of their rooms.

Unauthorized or inappropriate possession of any key or passkey, reproduction of any key or passkey, or interference with locks or other security devices makes a student liable to disciplinary action and/or eviction.
Exterior doors propped open for longer than two minutes activate a silent alarm that alerts the Harvard Police Department. In addition, propped exterior doors invite both human and insect intruders. Do not prop open any exterior door.

**SMOKING**

Smoking is prohibited in any area of the GSAS residence halls. This includes individual resident rooms and all common areas or balconies. Residents who smoke must do so outside.

Smoking is prohibited within 50 feet of the residence halls. Smoking may not take place within 50 feet of any entrance or window. Harvard Yard, as well as many Harvard Schools and all Harvard University Housing properties, are completely tobacco free. Residents can find out more about this policy here: [http://hpe.huhs.harvard.edu/tobacco-free-harvard-yard](http://hpe.huhs.harvard.edu/tobacco-free-harvard-yard).

If a resident is asked repeatedly to stop smoking in his/her room, the resident will be asked to move out of the residence halls and will be held financially responsible for the room until it can be reassigned.

University Health Services provides education and assistance to students who wish to stop smoking. Students may contact University Health Services’ Center for Wellness at 617-495-9629 for further information.

**VACATIONS**

GSAS residence halls do not close for vacation periods during the academic year. If you go away for longer than a week, you may want to notify your RA and make arrangements with the mail sorters to hold your mail. Mail otherwise may be returned to sender. Please also remember to turn off any alarm clocks in your room.

A resident must not allow another person access to a residence hall or room, or permit someone to stay in the room, when s/he is not present. This applies to all use including overnight, weekends, vacations, and holidays.

**WEAPONS AND EXPLOSIVES**

No rifle, pistol, other kind of firearm, ammunition, explosives, combustible fuels, fireworks, or potential ingredients thereof may be kept in a residence hall or on other University property.

---

**Community and Courtesy**

**BATHROOMS**

**Courtesy and Hygiene.** Please read the pamphlet on bathroom etiquette provided at move-in. In addition, keep in mind the following policies:

- Keep the bathroom clean. Do not leave anything in the bathroom.
- Residents are expected to be clothed at all times when using the bathroom, unless they are taking showers. Proper clothing (i.e., bathrobes) should be worn in the hallways when a resident is coming from or going to the bathroom to take a shower. Walking around nude or in only a towel is inappropriate.
• Urinals and toilets should be flushed after each use. It is inappropriate to use a foot or shoe to flush a urinal or toilet.
• No standing on the toilets.
• Tampons and sanitary napkins must not be flushed down the toilet. Disposals are located in each stall.
• No spitting in the shower.
• Feet should be washed in the shower, not in the sink.
• No dental care, including brushing teeth and flossing, should take place in the toilets or showers. Dental care should only take place at the sinks.
• Brushing teeth, spitting, shampooing of hair, cutting of hair, watering plants and other items, etc., are restricted to the bathroom.
• Hand laundering clothes should be done in the sinks in the laundry room, not in the bathroom or kitchen.
• Bathroom facilities, such as showers, are a particularly common place to catch contagious diseases (athlete’s foot, etc.); therefore, residents and guests are advised to wear shower shoes or flip-flops while showering.

Cleaning Schedule. The bathrooms are cleaned on a daily basis by the custodian in your residence hall. The bathrooms will be closed for one half hour each morning while the custodial crew cleans them. Your consideration and cooperation will be appreciated. If the custodian is in the process of cleaning the bathroom, residents are asked to use a different bathroom.

Appropriate Dress. As a courtesy to other residents, tops/shirts should be worn at all times in the common areas of the residence halls (kitchens, lounges, laundry rooms, hallways, etc.). Walking around nude or only in a towel is inappropriate and not permitted.

HEALTH ISSUES–EFFECT ON RESIDENTIAL COMMUNITY

Physical illness or the emotional difficulties of an individual student can affect other members of the residential community; therefore, in situations where a student’s medical condition causes concern about the appropriateness and/or feasibility of his or her continuing to reside in or returning to a residence hall, GSAS, in consultation with clinicians at University Health Services (UHS) will determine whether a student can remain in or return to a GSAS residence hall. Such situations can include notification to GSAS that a student has been treated in the emergency department of a hospital or been hospitalized. In those instances, the student’s medical record, including his or her mental health record, will not be available to officers of GSAS.

Consultation between clinicians and officers of GSAS should occur at least 24 hours prior to the anticipated possible return of a student to a residence hall. An important factor in the decision about whether a student may return to a residence hall is the effect of the student’s presence on members of the residential community. Consultation about whether it is appropriate or feasible for a student to return to a residence hall may also, therefore, include consultation with residents who are affected and with residential staff, only as necessary and with respect for confidentiality and the student’s right to privacy.

In certain instances that involve hospitalization of a student, an evaluation by a UHS clinician will need to be conducted to determine whether it is appropriate for a student to return to and/or remain in a residence hall.
Under certain circumstances, a student may not require hospitalization, but the type of care and accommodation necessary for his or her recovery may extend beyond the physical resources or appropriate responsibilities of staff.

The final decision about returning to and/or continuing in a GSAS residence hall will rest with the GSAS Dean for Student Affairs.

In certain instances in which there is concern regarding the well-being of a student and/or if the student is hospitalized, the individual whose name the student has provided as his or her emergency contact may be notified by an officer of GSAS.

**Safety and Security**

**CRIME PREVENTION**

The Harvard University Police Department (HUPD) is committed to providing the Harvard community with a safe and secure environment. Although reported crime (predominantly property crime) at Harvard is low, it is important for students, faculty, staff, and visitors to remember that we are located in an urban setting; therefore, we share many of the crime and safety issues that exist in any city. In partnership with the community, we work to prevent crime and solve problems that affect students, faculty, and staff. The safety and security of the University is the combined responsibility of the entire community.

Over the last five years we have recorded approximately 500 thefts annually. Almost all of the thefts involved the taking of unattended property from public spaces or from unsecured offices and residences. Thefts from offices and residences usually were perpetrated by individuals with no connection to the University who entered locked buildings illegally by piggybacking or entered unlocked buildings.

In order for the HUPD to maintain a safe and secure environment for the students, faculty, and staff of the University, it needs the help of the community. The HUPD cannot do it alone! As noted below, take precautions to protect your property by never leaving it unattended in public and by locking your room or office when you leave it even for a moment, and maintain your safety while traveling throughout campus by walking with others on well-lit streets and by using the shuttle bus, escort van, or Harvard University Campus Escort Program (HUCEP).

In addition, we need you to serve as our eyes and ears. You are in a better position to identify behavior and activities that are out of the ordinary in your residence or workplace. When you do identify suspicious behavior, we need you to call the HUPD. You should trust your instincts. If something doesn’t seem right, it probably isn’t. Don’t ignore it or keep it to yourself; call us – even if you are unsure about what is occurring. We are not encouraging community members to intervene or take actions on their own. We just need you to take a moment to call us to alert us to the situation. We will then dispatch officers immediately to investigate the situation and take appropriate actions.

**Your Role in Preventing Crime and Staying Safe.** Keep yourself, your residence, your office, and your car safe by incorporating safe behavior into your daily routine.
• When you leave your room, office, or vehicle, even for a moment, always keep your doors and windows locked.
• Never leave your purse, wallet, book bag, laptop, or other property unattended, even for a moment.
• When locking your bicycle, use a steel U-lock rather than a cable/chain lock. Lock the frame and tire together to a stationary object.
• Trust your instincts. Be careful when people stop you for directions, request money, or ask you for the time. Always reply from a distance; never get too close to the car or the person. If you feel uncomfortable about someone near you, head for a populated area and call the HUPD at 617-495-1212.
• Know the locations of blue light emergency phones on campus.
• If you are out after dark, use only well-lit routes or Designated Pathways, make use of shuttle buses, the escort van, and HUCEP, and travel in groups when possible.
• Look confident when you walk. Make eye contact with passersby, and keep a firm grip on your property.
• Carry your keys in your hand so you can quickly get into your car or home.
• In your vehicle, keep possessions out of sight (in the trunk).
• Although it seems courteous to open doors for others, especially persons carrying groceries or packages, do not open any doors for strangers.

For more detailed information on safety and security, please read the Harvard University Police Department’s “Playing it Safe” booklet, which can be found at: http://www.hupd.harvard.edu/files/hupd/files/hupd_15_asr_101515.pdf?m=1448894275.

PIGGYBACKING POLICY

It is extremely important to prevent “piggybacking,” which, as you may know, is when the person behind you follows you into a building. If someone you do not recognize attempts to follow you in when you open a door to a residence hall, please do not automatically let the person in. You can help deter piggybacking by asking, “May I help you?” or “Do you live here?” If you live in a residence hall and are asked these questions, please do not be offended and know that you are being asked the questions as part of a community effort to help prevent piggybacking. If you are behind someone who is entering a residence hall and you would like the convenience of following him/her into the building, we suggest saying hello and identifying yourself by showing your Harvard ID. If someone does follow you into a residence hall and you are concerned that his/her behavior is suspicious, please do not hesitate to call the Harvard University Police – 617-495-1212. Flyers about piggybacking are posted at the entrances to the residence halls. Created by several Resident Advisors, the flyers will serve as important reminders about the responsibility that all residents have to help prevent piggybacking. If you have any questions or concerns, please let your Resident Advisor or the Director of Residential Life know.

MISSING PERSONS POLICY

As required under federal law, the Graduate School will refer any missing persons report involving a student immediately to the Harvard University Police Department. If HUPD determines that the student has been missing for more than 24 hours and has not returned to the campus, the School will, within 24 hours: (1) attempt to contact the student using any confidential contact information that the student may have provided to the School, (2) notify an appropriate law enforcement agency, (3) contact any person the student has identified to the Registrar as an emergency contact, and (4) notify the appropriate people at Harvard about the student’s disappearance. Students are reminded that they may
provide the Registrar with emergency contact information and/or confidential personal contact information if they have not already done so.

Emergency Procedures

FIRE EVACUATION PROCEDURES

In Case Of Fire. In case of fire or heavy smoke, be calm, move quickly, and follow these steps:

- Determine if it is safe to exit your room. If so, pull the fire alarm located in the corridor/near exits in your building if it has not already been activated. This will warn the occupants and alert the Cambridge Fire Department. (If activated, the room smoke detector alarm sounds. Smoke detectors are local alarms that only sound in the individual room.)
- IF YOU HEAR THE FIRE ALARM, EVACUATE THE BUILDING AT ONCE. Use main stairwells if possible. If impassable, use alternate exits such as fire staircase, fire escapes, or windows. Be aware of all emergency exit routes for your location. If you suspect the fire to be outside your door, feel the door to determine if it is hot. If the door is cool, open it slowly. If the fire is not in the immediate vicinity, evacuate the building.
- If smoke, heat, or fire is present, close the door and use another exit, or create attention at the window. If you are trapped in your room, seal the door if possible and call 911. Provide the fire department with your exact location.
- CLOSE DOORS in order to limit the spread of fire and smoke. Exit the building IMMEDIATELY.
- Once you are safely outside, call the Fire Department (911 or 617-495-1212). Provide the street location of the building, building name, and floor on which the fire is located, if known.
- Residents of Child and Richards halls should gather on the lawn adjacent to Harkness Commons (Jarvis Field) near the steel sculpture, World Tree. Residents of Perkins Hall should gather near the front of Maxwell Dworkin, and residents of Conant Hall should gather on the MCZ lawn adjacent to Conant Hall, unless instructed otherwise.

Note: “In Case of Fire” posters are posted on the bulletin boards in the residence halls. False pulling of any alarms is illegal. False alarms endanger everyone. In a real emergency, people accustomed to false alarms do not react. In serious emergencies, this leads to injury and possible loss of life. For more information about fire safety and prevention, see the section entitled “Fire Regulations” under “Rules and Regulations.”

Fire Safety Tips

- Know where fire exits, fire alarms, and fire extinguishers are located. (A floor plan with locations of these items is posted on every floor.)
- Only trained personnel should use a fire extinguisher—even for small fires. If there is a fire, direct someone to immediately pull the fire alarm.
- If you do need to use a fire extinguisher, remember 4 simple steps. P.A.S.S. – Pull the pin, Aim the fire extinguisher at the base of the fire, Squeeze the handle of the extinguisher, and use a Sweeping motion –back and forth.
- If there is a fire in the oven, close the oven door.
- Do not throw water on grease fires. Use a fire extinguisher or smother flames by either placing a lid on the pan or by throwing baking soda on the flame.
• Do not leave food unattended on the stove or in the oven. Place a pan or foil under cooking food to catch drippings. Do not let water boil over.
• Do not overload electrical outlets or extension cords.

If you have any questions or concerns about fire safety, please contact the GSAS Facilities Manager, 617-495-0747.

OTHER EMERGENCY EVACUATION PROCEDURES

In the event of an emergency such as an evacuation of a residence hall(s), residents are expected to follow the procedures outlined below unless instructed otherwise by a Resident Advisor, University police officer, or GSAS administrator.

• In the event that a residence hall(s) needs to be evacuated, RAs, University administrators, and/or University Police will notify residents. In some instances, notification will be made by posting flyers on bathroom doors.
• In the event that a residence hall(s) needs to be evacuated, residents of Child and Richards halls should gather on the lawn adjacent to Harkness Commons (Jarvis Field) near the steel sculpture, World Tree. Residents of Perkins Hall should gather near the front of Maxwell Dworkin, and residents of Conant Hall should gather on the MCZ lawn adjacent to Conant Hall, unless instructed otherwise.
• In a situation whereby a residence hall lounge(s) or other University location is available for residents to gather, a Resident Advisor will be present to serve as an information source and to provide assistance.
• Resident Advisors and other GSAS staff will be easily identifiable by their name tags and shirts.
• Residents who are ill, injured, or who have another compelling circumstance should identify themselves to a Resident Advisor.
• Students who have a disability should contact their Resident Advisor within two days after moving into the residence hall to review emergency procedures that apply to their particular needs.
• If one residence hall needs to be evacuated, another residence hall would be designated as shelter space. If all four residence halls need to be evacuated, ordinarily the QRAC (Quad Recreational Athletic Center), 60 Garden Street, would be designated as shelter space.

Please review the procedures to follow in the event of fire, which are outlined in this handbook.

While it is anticipated that the procedures noted above will be followed in most instances, unanticipated circumstances may necessitate other approaches. Residents will be informed of such changes by Resident Advisors.

Please note that in emergency situations, rumors often abound. In such instances, consult a Resident Advisor for clarification.

EMERGENCY PHONE NUMBERS

• Reachable 24 hours a day: Harvard University Police, 617-495-1212
• Operations Center (facilities emergencies), 617-495-5560
• University Health Services, 617-495-5711
Room Contract

GSAS HOUSING CONTRACT 2015-2016

There are three (3) separate components of the Housing Contract, all of which must be signed: the request for a license to occupy a room in the GSAS residence halls; the terms and conditions of the license; and the meal plan contract. **All three (3) sections must be signed and returned to the GSAS Office of Residential Life in order for your housing application to be considered complete.** If you have any questions about this document that cannot be answered through the website or application information brochure, please contact the GSAS Office of Residential Life (gsashouse@fas.harvard.edu or gsasreslife@fas.harvard.edu, 617-495-5060).

REQUEST FOR LICENSE: I hereby request a license for living quarters in a Harvard Graduate School of Arts and Science residence hall on the terms and conditions below in the event that I am assigned living quarters in the GSAS lottery procedure. I understand that I will be bound by the terms and conditions of the license once I am assigned living quarters in the GSAS residence halls by the GSAS Office of Residential Life.

I further understand that if I wish to apply for a cancellation of this license, I must do so in writing and that such requests shall be effective only if agreed to in writing by the University. The University is not obligated to honor such requests.

Signature __________________________________________ Date __________________________

LICENSE TERMS AND CONDITIONS:

EARLIEST PERMITTED OCCUPANCY DATE: August 21, 2015

In consideration of the assignment to me of living quarters consisting of a room or suite in one of the GSAS residence halls (the “Quarters”) for the academic year 2015-2016, specifically from the earliest permitted occupancy date set forth above to the end date, May 19, 2016, at 12:00 Noon, I hereby agree to accept from Harvard University a license to occupy, in accordance with and subject to the Handbook for Students of the Harvard School in which I am enrolled, the GSAS Residence Hall Handbook, other established rules and usages of the University and the conditions set forth herein, the Quarters or any other Quarters to which I may be at any time assigned, to be occupied only by me. For this license, I hereby agree to pay to the University a room fee in the amount set forth in the “GSAS Residence Halls” brochure for the 2015-2016 year (the “Room Fee”). And I hereby agree to be bound by and to comply with said regulations, rules, usages and conditions.

Notwithstanding the end date in the foregoing paragraph, I understand and agree that if I will be receiving a degree on May 26, 2016, I may remain in occupancy until 12:00 Noon on the day after Harvard’s Commencement, Friday, May 27, 2016, subject to the right of the GSAS Office of Residential Life to move me to different Quarters for the period from May 19, 2015 until May 27, 2016.

I shall have no interest or estate in the land but only a license to occupy the Quarters assigned to me. Upon assignment of the Quarters to me, I shall be obligated to pay the Room Fee for the entire
academic year, unless the University cancels or terminates the license, even if I cease to occupy the
Quarters so long as I continue to be a registered student pursuing a course of instruction in Harvard
University, unless a replacement licensee is found, satisfactory to the University (in which case my Room
Fee will be pro-rated on a monthly basis, as calculated pursuant to the University Monthly Payment
Plan). I understand that the University may cancel the license and reassign the Quarters if I fail to
register as a full-time student in resident status at Harvard University for the academic year 2015-2016,
or if I have not started my occupancy within seven days of the earliest occupancy permitted date, unless
GSAS has agreed in writing to a later occupancy date. In the case of such cancellation, there may be a
cancellation fee of up to one-quarter of the Room Fee for the fall term. Collection of the Room Fee will
be divided between the first term bill of the fall term and the first term bill of the spring term (although
payment may be made in accordance with University Monthly Plan if elected). Because the fall term is
slightly longer than the spring term, the Room Fee for the fall term will be more than half of the total
Room Fee. My right to occupy the Quarters shall terminate upon my ceasing for any reason to be a
registered student pursuing a course of instruction at Harvard University, in which case the Room Fee
shall be pro-rated on a monthly basis, as calculated pursuant to the University Monthly Payment Plan.

The University reserves the right to terminate the license if I fail to follow any rules, regulations or
policies referenced herein or for any other cause it deems reasonable (including without limitation if the
University believes that my conduct is jeopardizing my welfare or the welfare of the community),
making an appropriate adjustment of the Room Fee. The University may also reassign me to other
Quarters at any time, again making an appropriate adjustment of the Room Fee.

The assigned Quarters are to be occupied by me, and are for single occupancy only unless expressly
otherwise stated. Each occupant of the Quarters is responsible for the care of University property in the
Quarters, and all occupants of the Quarters may be held jointly responsible for any loss or damage.
Licensees also share joint responsibility for the common areas of the GSAS residence halls and may be
subject to joint assessment in the event loss or damage to such areas where University officials conclude
that individual responsibility cannot be established. A degree will not be granted to a Licensee until such
assessments are paid in full.

The University shall not be liable directly or indirectly for any inconvenience, loss or damage caused by
an insufficiency of heat or irregularity in the supply of electric current, or for the loss or theft of or
damage to any of my property or the property of my visitors, wherever situated.

The University reserves the right to enter the Quarters at times it deems reasonable for standards of
safety and/or building maintenance. The University may enter the Quarters without notice for the
purposes of emergency service, safety, and room condition inspections, or, if there is reason to believe
that any term or condition of the license is being violated. When entering the Quarters, the University
may be accompanied by an outside party, such as a fire inspector.

The Quarters must be cleared of all personal property upon termination of the license. The University
accepts no liability for personal property remaining in the accommodations after termination. The
University may dispose of such property at the occupant’s expense.

Please sign below to indicate your agreement with the license terms and conditions.

MEAL CONTRACT 2015-2016 ACADEMIC YEAR

PLEASE NOTE: The Meal Contract will be cancelled automatically if you are not assigned living quarters in the GSAS residence halls.

I agree to pay $2,232.00 for the Dudley Meal Plan, which consists of three (3) meals per week, sixteen (16) floating meals each semester, and sixteen (16) guest meals each semester for a total of 153 meals for the 2015-2016 academic year. All meals are taken at Dudley Café, located in Dudley House (Lehman Hall), on the first floor.

Dudley Café offers lunch and dinner Monday through Friday, except for the following times when Dudley Cafe and/or the University are closed. No meals will be offered during the following days.

- Columbus Day: Monday, October 12
- Veteran’s Day: Wednesday, November 11
- Thanksgiving Holiday: Wednesday, November 25* through Friday, November 27
- Winter Recess: Monday, December 14 to Friday, January 8
- MLK Jr. Day: Monday, January 18
- President’s Day: Monday, February 15
- Spring Recess: Monday, March 14 to Friday, March 18

*Please note that on November 25, Dudley Café will only be closed for dinner. The Café will remain open for Lunch.

I understand that the Dudley Meal Plan provides three meals per week and that any of the three meals not used during a given week are forfeited and cannot be carried over to another week. I understand that the Meal Plan also provides sixteen (16) floating meals each semester that can be carried over from week to week (though they cannot be carried from fall term to spring term). I understand that the Meal Plan also provides sixteen (16) guest meals each semester than can be used for guests or personal use and can be carried over from week to week. Guests must be present in the dining room when a guest meal is requested for them. I understand that once this contract is signed, it cannot be cancelled or terminated unless my license to occupy living quarters in the GSAS Residence Halls is cancelled or terminated, in which case I will be held liable for the meal plan fees until a replacement licensee is found for my living quarters.

I understand and agree to pay the fee for the Dudley Meal Plan in two equal installments of $1,116.00, which will appear on my fall and spring term bills.
